

WH IRELAND

WH Ireland is a financial services company offering Private Wealth Management, Financial Planning, and Capital Markets services. The Private Wealth arm provides discretionary and managed advisory services to individuals, corporates, trusts and funds. By offering a highly personal, bespoke service we are able to provide timely advice and create long term relationships based on trust. We can trace our roots back to the founding members of the Manchester Stock Exchange where William Henry Ireland began operating his stockbroking business from the Commercial Offices in Cross Street. In the 1980s the company took over J Stephens & Co, a local Manchester broker, before floating on AIM in 2000. Our Corporate Broking division provides Corporate Finance, Research, Market Making and Fund raising capabilities to quoted small/mid-cap companies. We offer a full NOMAD service to the majority of our corporate clients. We firmly believe that by placing our client's needs at the centre of everything we do, WH Ireland is well placed to provide timely, bespoke and helpful advice to a diverse range of clients.
